Response to Amendment

Applicants' Appeal brief filed on January 19, 2007 has been entered and forwarded to the examiner.

Therefore claims 1 to 11, 13, 14 and 23-31 as recited in the amendment of January 20, 2006 are currently pending in the Application.

It is noted that Appeal brief incorrectly indicates that claim 2 is not pending. (appeal brief page A-2).

Claims 12 and 15 to 22 were previously cancelled.

Allowable Subject Matter

Claims 1 to 11, 13, 14 and 23 to 31 are allowed.

The following is an examiner's statement of reasons for allowance:

The applied prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitation of the dependent claims, in such manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The applied prior art fails to teach a combination of all the claimed features as presented in independent claims (1 and 23) which include the arrangement for use in a package as recited including "at least one wire connected to the chip and extending through the bond opening and the bonding channel" and teach or suggest that "those openings ever include an encapsulation material "and further there may be no motivation to combine the references as stated in the Appeal brief (e.g. pages A-6,A-7) (cl.1) and for claim 23 in addition to the above the escape prevention structure as recited.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven H. Rao whose telephone number is (571) 272-1718. The examiner can normally be reached on 8.30-5.30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wael Fahmy can be reached on 571-272-1714. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
